Ultimate Blend of
Design, Features and
Flexibility

Stylish extras for homeowners...Better value for builders

FIREPLACES
FOR BUILDERS
Fmi

Warm Up To An Economical, High-Efficiency, Vent Free Gas Fireplace

There's a tremendous demand for vent-free gas heaters; because at 99%, they're the most energy-efficient of all hearth products, and can be installed virtually anywhere. And when architecture demands something really creative, we're ready then too. See thru or peninsula, clean faced or circulating... whatever the job requires, Fmi has the right fireplace. ... Paired with Fmi's multi-view vent-free gas log heaters, these fireplaces deliver all the beautiful features homeowners will love!

Homeowner Highlights:

■ **Distinctive looks**—Each model features heat deflection hoods and decorative chain mesh spark screens on each of the multiple viewing openings. Standard features also include attractive refractory brick panels.

■ **Uncompromising quality**—Solid steel construction and tough, charcoal powder coat finish are standard.

■ **Attractive accessories**—You have an array of attractive and functional extras, including heat circulating fan kits, brass louvers, and much more.

■ **Flexible Application**—Fmi vent free fireplaces are universally listed, and can be paired with any vent free gas log heater. (physical size limitations apply)

Builder Benefits:

■ **Economical and Versatile**—Installation costs come way down when you eliminate venting and chase construction. Particularly in multi-story housing. Multi view designs allow a variety of creative architectural applications with minimum construction or space requirements.

■ **More standard features**—Refractory brick liners, premium rolled louvers, and pre-wired "J" box are all standard.
